INSTRUCTIONS

All motor fuel made available to Maryland consumers are subject to quality control. A Certificate of Registration is required for each location dispensing motor fuel in Maryland and for each office that can be contacted to place an order for motor fuel to be delivered in Maryland. A valid Certificate of Registration must be prominently displayed at your place of business.

Any sale of motor fuel without a valid Certificate of Registration is illegal and subjects the violator to all penalties provided by law.

Annual registrations run from June 1 through May 31 of the next calendar year. Registrants will be sent an application to renew in sufficient time for processing and issuance of a Certificate for display prior to June 1. Completed renewal applications must be received in this office prior to May 10 if an operator intends to continue making sales of motor fuel.

Please answer each question. <u>Incomplete applications cannot be processed and will be returned to you.</u>

Your physical street address (location) is required in response to question #1. If you prefer to have mail sent to a <u>different</u> address, please indicate your mail address in question #2.

In response to questions #5 and #6, list all products sold and the name and address of the company/person who sells the products to you.
